Mr. John Koontz  
Enforcement Director  
Waste Management Administration  
Maryland Department of Health and Mental Hygiene  
201 West Preston Street  
Baltimore, Maryland 21201

Dear Mr. Koontz,

This letter is to confirm my conversations with you and your staff during the week of September 24, 1984.

I am pleased that we have agreed on the "10 ppm level" for the waste handling plan. If we find water or muds that show less than the "10 ppm level" we will place the materials on site so that no wastes would be discharged into the tributaries of Mill Creek. I will request AEPCO to include a statement to this effect in the waste handling plan.

As I mentioned, we are ready to award the contract for the drilling program and this plan is essential. We expectd to begin waste sampling October 8th and drilling by October 22nd. I will call to let you know when I plan to the site.

Sincerely,

*Roy Schrock*  
Roy Schrock  
Regional Project Officer
